

In the company of...

SOLVERS

Business area: Aerospace, Defence, Security and Technology (ADS&T)

Requirements: On track to achieve a minimum of 2:2 or above bachelor's or master's degree in any discipline

Our teams and what they do

Industrial year placement locations: Bristol, London, Manchester.

As a Management Consultancy Placement Student within our Aerospace, Defence, Security and Technology (ADS&T) practice, you will be joining an exciting and forward-thinking team of highly driven Consultants and Project Managers. During your placement you will be working on some of the most interesting public and private sector projects shaping the future of the UK.

The ADS&T Placement Consultant Development Programme (PCDP) pairs learning from experience on transformational national and digital projects with a continually evolving development programme. You will be part of a talented team of Consultants and Project Managers, enjoying all-level support from line managers to senior leaders. We also want you to maintain a healthy work-life balance and want to support wellbeing in and out of the office.

Within our business, we deploy our award-winning Management Consultants and Project Managers to work on ground-breaking projects within a wide range of clients. Examples of key clients within our Defence, Security, Government and Aviation markets include the Ministry of Defence and Heathrow Airport.

You will be...

At AtkinsRéalis, we offer a world of opportunities from the projects you will work on to the directions you can take your career. You will take early responsibility for assignments, whether it's consulting for public, private and security clients or providing key market intelligence to help grow our business. Through a mixture of client and internal projects, development and training activities, you will develop highly sought-after industry skills to take back into your final year of university.

You will be joining our Transformation & Delivery Consulting (TDC) practice, contributing to the following business areas:

- **Business Consulting** – tackling complex business issues, from managing and embedding change within client organisations, to developing business cases to support strategic decision making.
- **Project & Programme Consulting & Delivery** – providing consultancy services to assist our clients in delivering controlled transformational change, while providing expert advisory services to support our clients to continually improve in solving their most complex problems.

What are we looking for?

- Enthusiasm to drive your own career development in a consultancy environment and a motivation to learn and achieve professional accreditations in Management Consultancy or Project Management.
- Excellent communication and relationship building skills, with the confidence to work on your own initiative or as part of a multidisciplinary team.
- An ability to adapt to the changing world of work, embracing new technology and ways of working while being curious in to analyse problems and create innovative solutions.
- A drive to contribute to and grow the Early Careers community within AtkinsRéalis.
- An interest in the Defence, Security, Government and/or Aviation market
