

## **Digital and technology solutions – Level 6**

The entry requirements for the learning provider for this course are as follows:

- a minimum of 112 UCAS tariff points
- Applicants must also hold GCSE grades in Maths, English and additional STEM subject at grades C, or 4, or above.
- Disciplines studied post GCSE must include any of Engineering, IT, Computing, Web and Telecoms or relevant STEM subjects.
- In addition to the required entry tariff applicants must have also achieved an A level in Maths at grade C for all pathways except Data Analytics. For the Data Analytics route, A level in Maths at grade B is expected. Where required subjects are not held, applicants will be required to successfully complete a Mathematics bridge course.
