CREATORS

<p>Business area: Faithful+Gould</p>
<p>Requirements: Obtained or expecting a 2.2 Bachelor's degree or above in a Built Environment degree with BIM Modules/BIM dissertation or a Master's degree in Information Management or Information Modelling.</p>
<p>Our teams and what they do</p> <p>Join us as a Graduate Information Manager and enjoy exposure to a wide variety of industries, clients and projects. We design with people in mind, and we've designed our graduate opportunities to provide you with unique experiences as you play your part in all kinds of challenging projects. This includes adding value to our clients' data maturity journey by providing clients with strategic Information Management advice at a project or organisation level. And while you're contributing to the development of a more data-connected world, we'll support you to achieve your career aspirations.</p> <p>Within the role you could:</p> <ul style="list-style-type: none"> • Support development of the Client's BIM brief and support author their Exchange Information Requirements (EIR) • Contribute as part of the Information Management team to develop project specific information management and delivery documents including Asset Information Requirements (AIR) and Project Information Requirements (PIR) • Assist internal project teams to review, comment and agree the BIM Execution Plan (BEP) with the Client and Consultants/Contractors • Support the Information Management team on various projects, providing technical support and BIM expertise and guidance • Providing assurance and compliance on project information deliverables as an Information Manager on behalf of the Client • Review of Project and Asset Information Models • Supporting Clients with Common Data Environment (CDE's) in the specification, procurement, configuration, onboarding, training and administering • Keeping abreast of relevant legislative changes, industry issues and developments in best practice along with the latest national and international initiatives • Positively contributing to and participating in internal/external training initiatives
<p>Training and development</p> <p>Our training will help you solve real-life problems from day one and develop industry skills that are highly sought after.</p> <ul style="list-style-type: none"> • Our 3-year flexible graduate scheme promises to give you the support you need to develop your technical, commercial and consultancy skills. What defines Faithful+Gould is the unrivalled amount of support by your assigned supervisor and buddy during APC workshops, monthly Q&A, training and mocks. • Professional development which will be discussed throughout the GDP, supporting you in becoming a well-rounded consultant and encouraging you to obtain a hybrid BIM-focussed APC by offering you a wide variety of work and projects in order to gain experience required to achieve this. We also offer core learning modules to develop your softer skills such as technical writing and presentation skills to enable you to complete your day-to-day role. • APC coaching, professional training and industry exposure with a high-level clients and variety of projects.

- The GDP will culminate in BIM certification from a globally recognised body.
- This year we have had exceptional UK APC results exceeding the national average by 15% with a combined pass rate of 80% which shows our dedication and commitment to training and L&D.
